

## AUXEY-DURESSES LE VAL

Côte de Beaune

Premier Cru

Red

Pinot Noir

### Vineyards situation

This great Premier Cru is very well South oriented on a very steep slope.

### Characteristics

The soil is stony and is able to keep the sun heat. The result produces a dense and deep color.

### Wine making

This wine is fermented in open casks and then aged during 18 months in French oak barrels.

### Winemaker's comments / Gastronomy

This Premier Cru is very fresh due to the location of the vineyard: at a rather high altitude.

It shows very open and generous aromas and has a nice aging potential.

### Preservation

Auxey-Duresses le Val will be able to be drunk young but will also be able to age nicely up to 10 years and more.
