

SAINT-AUBIN LES FRIONNES

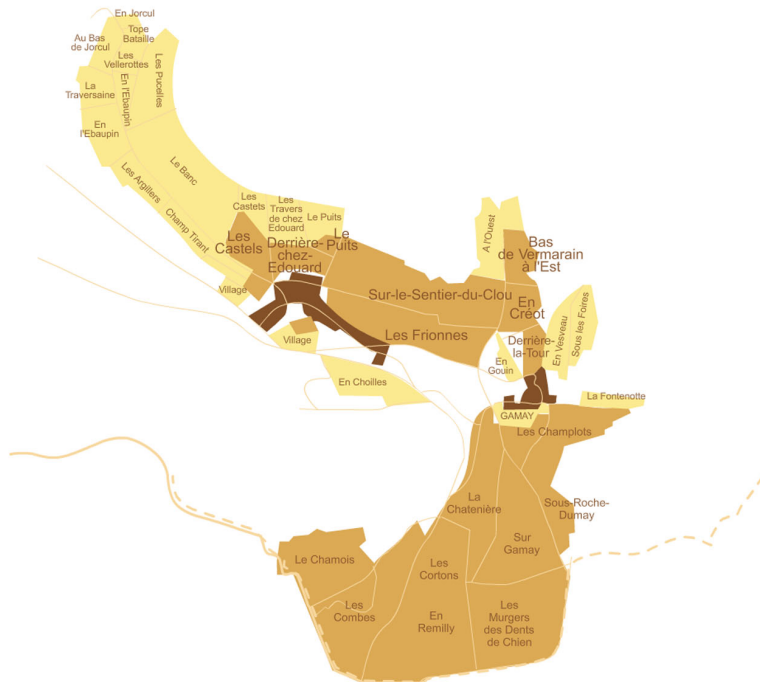

Côte de Beaune

Premier Cru

Red

Pinot Noir

Vineyards situation

The village of Saint-Aubin close to Puligny-Montrachet and Chassagne-Montrachet produces mainly white wines with some exceptions such as Les Frionnes.

Characteristics

This wine is produced from a vineyard which is south-east oriented in a rather windy location, behind the village of Gamay.

The grapes there tend to reach their full ripeness much later. Some patience is needed before harvesting.

Wine making

Grapes are destemmed and ferment during about 4 weeks. Aging takes place in barrels for 18 months (1/3 new barrels).

Winemaker's comments / Gastronomy

This wine is usually dense with very nice and deep colour. The nose is spicy with some licorice also.

Preservation

Aging potentiel 5-7 years and more.
